The following is an examiner's statement of reasons for allowance: although the Papasouliotis et al's reference (U.S. Patent 6,030,881) discloses an etch to deposition ratio of 0.02, it does not teach deposition of silicon dioxide into trenches of different aspect ratios. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joannie García whose telephone number is (571) 272-1861. The examiner can normally be reached on Monday through Friday.
